C
C++

HTML
SQL
Python

Project

Statistics of IPL using Data Visualization:

Data visualization brings life to the statistics, making them more engaging and impactful. Visualizations can capture the excitement of the IPL, allowing fans to relive memorable moments, compare player performances, and track team progress. They enable us to tell compelling stories through data, conveying insights and narratives that enhance our understanding of the game.

Comprehensive Women Safety app:

This project is to address the pressing issue of women's safety in society by developing an innovative Android application. Ultimately, our project seeks to not only mitigate the immediate risks faced by women but also foster a culture of empowerment and security in society
